

Tips for a better online experience

- Make sure you have the [Zoom Client App](#) on your device.
- Download the pre-recorded videos in advance of the Symposium or check you can access the You Tube playlist.
- You can access the Symposium navigation page at:
https://isaacphysics.org/pages/vts2021_landingpage
- Log on early and test equipment. Use “Contact Us” on website if you are having issues with logging into Zoom.
- Use a wired rather than wifi connection if possible.
- Please mute your microphone and turn your video off unless actively participating.
- Please use the chat function for questions and comments.
- At the beginning of the day you will be let in from the waiting room. After that, you can leave and re-enter the meeting at any time.
- Have calculator, paper, pens, Isaac books if you have them and Schemes of Work for GCSE and A Level to hand for all sessions.
- If you have a visualiser or desk camera, you may wish to share your screen to show your work in the break-out sessions (optional).
- Feel free to take a break or attend to any commitments.
- Have a stretch if you need to.
- If possible. watch pre-recorded videos in advance if you will miss a session.
- Let us know if we can help with any accessibility needs (ingrid@isaacphysics.org).
- Be comfortable but be aware that others can see you and your background if you put your video on, and all meetings will be recorded. You may wish to blur your background.
- Be respectful of others and expect respect in return. This is a safe space and it is acceptable to challenge offensive or discriminatory language, behaviour or microaggression – any concerns email ingrid@isaacphysics.org
