Code of Behaviour:

This form should be read and signed by the student who intends participating in the residential boot camp. Without signing this form, the student will NOT be allowed to attend the course.

Expected Behaviour:

Participating in this boot camp for 3 days will be very different from your experiences at school/college. Isaac Physics wants all students to benefit from the course and to enjoy this new experience. In order to do this, you will be expected to show responsible behaviour while attending the camp as well as respect for the rights of other students and staff.

Rules and Behaviour

For health and safety reasons, and for all students to have the opportunity to benefit and enjoy the boot camp, the following rules and regulations will be in operation.

1. Alcohol must not be brought onto the boot camp site or consumed during the boot camp.
2. The purchase or use of any illegal substances is strictly forbidden.
3. Smoking is not allowed.
4. Students are expected to attend all timetabled activities (unless there is a valid reason for absence, such as illness).
5. Students are not allowed to leave the boot camp sites without permission from appropriate staff.
6. Students are expected to follow any emergency procedure, such as a fire drill, as directed by staff.
7. There will be separate male and female accommodation. Males and females are expected to keep to their own accommodation areas.
8. Students are expected to be in their rooms at specified times (which will be indicated on the first day).
9. Students must not disrupt or otherwise disturb the academic functioning of the physics school.

Serious incidents of misbehaviour

In the event of serious incidents of misbehaviour, such as fighting, racial abuse or the use of illegal substances, the student(s) concerned will not be allowed to continue on the Summer School course and arrangements will be made for the student(s) to be taken home.

First day of Summer School

On the first day of the Summer School, staff may explain some additional rules and regulations that will apply to activities currently being planned. As such, it is expected that you will adhere to them for your own health and safety, and that of other students and staff.
